# Session Review

---

# Brain Breaks and Key Concepts

## Breathe

- ❖ Anchor Breathing
- ❖ Starfish Breathing / Take Five
- ❖ Even In - Even Out
- ❖ Alternate Nostril Breathing

## Move

- ❖ Stork
- ❖ Eagle – Chair & Standing
- ❖ Chair Cat/Cow
- ❖ Sunrise/Sunset

## Rest

- ❖ Mindful Listening
- ❖ STOP
- ❖ Guided Rest/Body Scan

- 
- ✓ *Allostatic Load*
  - ✓ *Body Awareness*
  - ✓ *Transformative SEL*
  - ✓ *6 Critical Healing Factors*

# Social and Emotional Learning Competencies

- Identifying emotions
- Self-perception/Identity
- Recognizing strengths
- Sense of self-confidence
- Self-efficacy
- *Integrating personal and socio-cultural identities*
- *Analyzing of beliefs, mindsets, and biases*
- *Social interdependence*

- Impulse control
- Stress management
- Self-discipline
- Self-motivation
- Perseverance
- Goal-setting
- Organizational skills
- *Personal and collective agency*

# Social and Emotional Learning (SEL)

## CASEL Competencies

*Educators and education leaders do have control over how they view themselves, their students, the school community, the world, and how they act on these perspectives.*

*Educators and leaders who employ adult SE competencies are equipped to influence lasting changes to address inequities at the community, district, and State levels.*

# Learning Objectives

---

- ❖ Identify the **aspects of social awareness**.
  - ❖ Experience **simple self-care strategies** throughout.
  - ❖ Describe SEL and its competencies with a focus on **social awareness**.
-

# Engaging Activity: Even In – Even Out

# Social and Emotional Learning Competencies

The ability to take the perspective of and empathize with others, including those from diverse backgrounds and cultures.  
The ability to understand social and ethical norms for behavior and to recognize family, school, and community resources and supports.

# Social and Emotional Learning Competencies

- Perspective-taking
- Empathy
- Appreciating diversity
- Respect for others
- *Recognizing setting demands and opportunities*
- *Determining common social goals and interests*

# Social Awareness and Self-Care

# Engaging Activity: Mountain/Chair Strength Sequence

# Social Awareness and Self-Care

“Gas Pedal”

Sympathetic Nervous System:  
Fight or Flight

“Brake”

Parasympathetic Nervous System:  
Rest and Digest

# Social Awareness and Self-Care

---

# Engaging Activity: What did you see first?

Image: <https://www.illusionsindex.org/i/duck-rabbit>

# Duck-Rabbit Image

We interpret situations, people's actions, and even pictures differently.

- Sometimes, we're too quick to judge a situation.
- We don't always take the time to fully consider other perspective.

# Engaging Activity: Starfish Breathing or Take Five

# Bias

An inherent or learned prejudice against a thing, person, or group when compared with another.<sup>1</sup>

Nearly all humans share a **negativity bias**, that is...our tendency to hold on to or collect negative information in the form of **memories** or **impressions**.

Image: <https://www.relevantinsights.com/blog/10-cognitive-biases>

# Negativity Bias

---

Negativity bias can take the shape of:

- ❖ Excessive worry
- ❖ Anxiety
- ❖ Frustration
- ❖ Aggression
- ❖ Judgement

**Sometimes it leads us to look for or expect danger.**

# Negativity Bias

---

For example, studies have found that:

- **In a relationship**, it typically takes five good interactions to make-up for a single bad one.
- People will work much harder to **avoid losing \$100** than they will work to gain the same amount of money.
- **Painful experiences** are much more memorable than pleasurable ones.<sup>1</sup>

1: Hanson, Dr. Rick, Take in the Good, May 5, 2020.

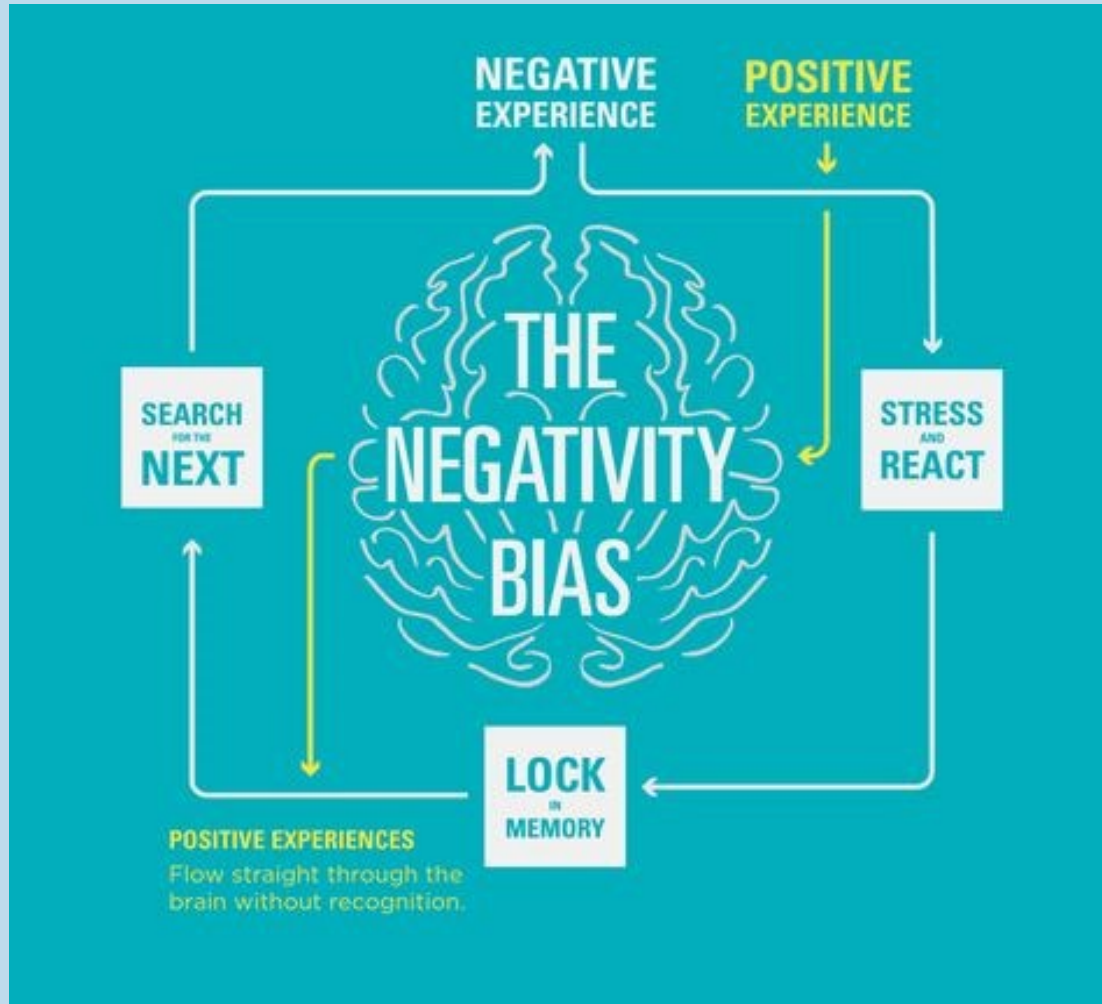

# Engaging Activity: Taking in the Good

# Taking in the Good

- Meaning, unpleasant experiences stick to the brain's longer-term memory.
- While pleasant experiences are less likely to stay put.

It takes **2-3 seconds** for one's brain to remember something **unpleasant**.

It takes **20-30 seconds** for your brain to remember something **pleasant**.

# Taking in the Good

---

We absorb and appreciate the experience of a positive thought or memory in order to cultivate resilience and gratitude.

# Engaging Activity: Standing Half Moon

# How to “Take in the Good”

---

1. Look for good facts and turn them into good experiences.
2. Really enjoy the experience.
3. Intend and sense that good experiences are sinking into you.<sup>1</sup>

1: Rick Hanson and Rick Mendius, “Positive Emotions and Taking In the Good,” 2007. <http://www.wisebrain.org/PositiveEmotions.pdf>

# Online

**More and more time is spent online.** Computers, phones and the internet are useful or required tools for school, work, socializing and in business.

How many hours do you think you spend on the internet or social media, **per day**?

- 3
- 5
- 7
- 10+

# Social Awareness Online

Since the internet has become the norm, our brains have become more and **more dependent** on it.

Studies show that chronic, long-term internet use can have an impact on **executive functions** of the brain and impair one's ability to feel:

- Compassion
- Empathy<sup>1</sup>

# Engaging Activity: Guided Rest / Body Scan

# Taking in the Good

---

- **Taking in the Good** entails focusing on the positive in **what is occurring** or has already occurred.
- Therefore, absorbing and appreciating the experience itself of a positive thought or memory in order to **cultivate resilience** and **gratitude**.

A brain-science savvy and psychological skillful way to improve how you feel, get things done, and treat others.<sup>1</sup>
